Stone Plastic Composite PVC Flooring

UNDERLAYMENT

Floor padding is important for better flooring installation and its benefits include

- Sound Reduction
- Moister Proof
- Pressure Resistant
- Smooth imperfactions in sub-floor

IXPE

It has a series of characteristics such as flexibility, lightweight, rapid pressure-sensitive fixing, easy to use, free bending, ultra-thin volume, reliable performance and so on.

Cork Packing

Comfortable and soft underfoot, it is an environment-friendly and natural elastic material with sound insulation and shock absorption.
