More Information

Single Stringer stairs give the most open look of any type of stair. These stairs have heavy-duty center beams that make the stair capable of handling 300 lbs per tread, and can go up nearly any height.

The single stringer can be made from:

- 100x100mm steel rectangular tube
- 100x150mm steel rectangular tube
- 100x200mm steel square tube
- 150x150mm steel square tube on diamond
- 114mm round steel tube
- 159mm round steel tube
- Tri-Frame stair configured from (3) pipes
- & more

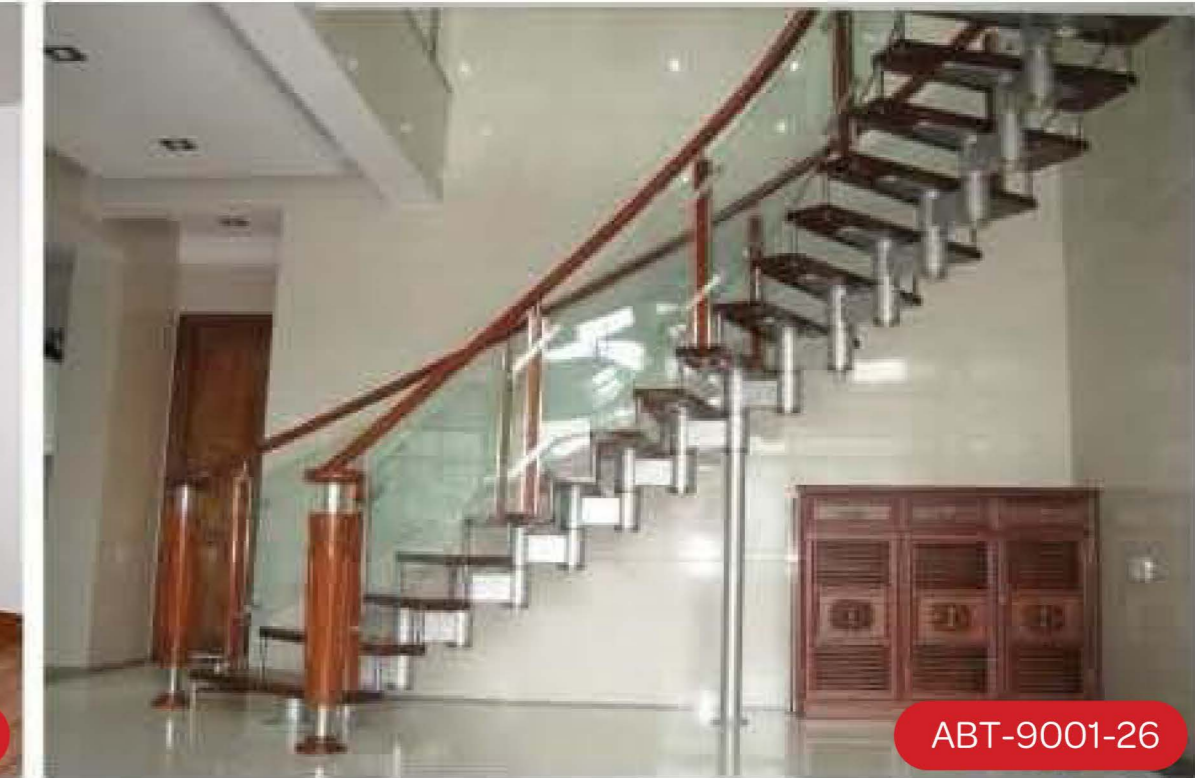

These stairs can be made in almost any configuration:

- Straight-line
- L-shaped
- U-shaped (aka switchback stair or scissor stair)
- Geometric winder treads
- & combined with curved stairs or spiral stairs!
